1. [ ] Comment. The Soviet Occupation Force received from Boehlen 576 carloads in October and 649 carloads in November. It is assumed that these shipments were not only addressed to military units in Eastern Germany but also to units in Poland and in the USSR. See [ ] . The rate of outgoing shipments that were dispatched during the period of observation made up about two thirds of the September output. [ ] .

25X1

25X1

2. [ ] Comment. Possibly, troop shipments.

25X1

3. [ ] Comment. The shipments contained runway mats for the airfields of Schoenhauser Damm and Grossenhain.

25X1

4. [ ] Comment. The Mockrehna ammunition depot was cleared from German captured ammunition and subsequently refilled with Soviet ammunition. [ ]

25X1

25X1

5. [ ] Comment. The concrete slabs are manufactured in various plants in East Germany. They are used as ground plates for splinter-proof boxes for aircraft.

25X1

6. [ ] Comment. The rate of military traffic continued normal. It increased in October as compared with that in September 1952 and dropped in November below the September rate because of the termination of the fall maneuvers.

25X1

7. [ ] Comment. Return shipments of units which are assumed to have witnessed the fall maneuver of the Eighth Gds Army on either side of Dessau at the beginning of October 1952.
